

Fig.S1a

Fig.S1b

Supplementary Fig.S1. Evolution of the phytoplanktonic biomass (a) using the main classes and the (b) zooplankton using the proportion of the total microcrustacean zooplankton, herbivores and herbivore cladocerans and between 2004 and 2019. A zoom is also proposed for years 2015 to 2018 for the herbivores at the different season.
